INTRODUCTION.

---

THE Archdeaconry of Richmond, as originally constituted, is of great antiquity, and was looked upon as the richest in England; it was erected by Thomas, Archbishop of York, in the year 1090, and included Allerdale and Cumberland, which were taken out of it by Henry I., in 1127, to establish the see of Carlisle. The authority of the Archdeacon of Richmond extended over eight deaneries, namely, Borobridge, Catterick, Richmond, Lonsdale, Kendal, Amounderness, Furness, and Copeland. Henry VIII., in 1541, abolished the office of Archdeacon of Richmond on the creation of the see of Chester, but a commissary appointed by the Bishop of Chester continued to exercise many of the powers formerly appertaining to the Archdeacon. Under this commissary the wills for the part of Lancashire north of the Ribble were proved, which district includes the whole of the deaneries of Amounderness, and part of the deaneries of Kendal, Lonsdale, and Furness, *i.e.*, the hundreds of Amounderness and Lonsdale, north and south of the Sands, and a small part of Blackburn hundred. It must be borne in mind that the deaneries and the hundreds are not exactly co-extensive, thus Ribchester and Chipping, though in Blackburn hundred, and Lancaster, although in the hundred of Lonsdale (except a small detached piece), are all in the deanery of Amounderness. The wills, inventories, and bonds from the five western deaneries down to 1748 were on the 1st

November in that year transmitted from Lancaster to Richmond\* by order of the Bishop, and thus it happens that they are found in London with the records relating to the eastern deaneries, but the wills for the western portion of the archdeaconry, which continued to be proved at Lancaster from 1748 until the Probate Act of 1857 came into operation, have never left that town. In 1861 the whole of the wills then in the Registry at Richmond (in Trinity Chapel) were removed to Doctors Commons, London, and in 1874 they were taken thence to the new Probate Registry at Somerset House. Since they reached London they have been admirably arranged and indexed, and it is from the indexes there compiled that the particulars contained in this work are mainly taken. Every name is given herein which occurs in the calendars for Amounderness and Furness deaneries, but as regards Kendal and Lonsdale deaneries, which extend to other counties besides Lancashire, the names relating to that county have had to be selected according to the descriptions of the deceased. Great pains have been taken to make this selection complete, but it is just possible that here and there a Lancashire description has been overlooked.

The wills at Somerset House down to 1680 are for

Amounderness	...	...	...	...	4683
Furness	...	...	...	...	4365
Kendal	{ Lancashire }	...	...	...	1435
Lonsdale	{ portion }	...	...	...	2000
Total					12483†

Before the year 1600 there are for Amounderness, 193; for Furness, 1029; for Kendal, 376; and Lonsdale, 480. Between 1600 and 1650 there are only 26 for Amounderness, whilst for Furness there are 1996, for Kendal 740, and for Lonsdale 980. By adding to the Amounderness list the 2279, of which abstracts are in the British Museum [see

\* In 1709-10 the Probate Court was removed from Richmond to Kendal, from whence it was removed to Lancaster in 1718.

† These figures include inventories or bonds in cases where there is no will.

below], it brings the total number for that deanery to 6962.

A careful study of the above figures leads me to the conclusion that for the deanery of Amounderness there are still missing about 10,000 wills of earlier date than 1650.

There is a tradition that when the wills were removed from Lancaster to Richmond they were conveyed in open carts, and that in passing through Wensleydale great numbers of the documents were lost or destroyed. This may or may not be true, but the fact remains that many thousands of wills are missing.

To trace these lost wills every effort has been made by private investigation and by letters in the local newspapers, but all trace of them appear to be gone.

The wills themselves are written on paper (or in some cases on parchment), and are now tied up in bundles of convenient size and are arranged under the various deaneries in alphabetical order. A very few, relatively, are registered in books. Many of them have suffered much from damp and neglect, and in not a few cases only fragments remain.

As with the Chester wills, so with these, there is the gap during the Commonwealth. The list of Lancashire and Cheshire wills and administrations proved in London at this period, which is printed in vol. iv. of the Society's publications (pp. 249-300), refers to the *whole* of Lancashire, and contains many belonging to the district north of the Ribble, and so has a proper application to this volume as well as to the volume in which it appears.

Just before this volume went to press it was discovered that one of the volumes of the Towneley collection of MSS.,\* lately acquired by the British Museum, consisted of abstracts of 2279† Lancashire wills, almost all of which are for the deanery of Amounderness, ranging in date from 1531 to 1652, and on examination of these abstracts it is clear that they represent a portion of the missing wills.

\* Add. MSS. 32115.

† Eleven refer to Westmoreland and Cumberland, making the total 2,290.

From a memorandum\* on the fly leaf of the volume it appears the original wills, in 1670, were delivered by Captain Brabent, of Preston, to Christopher Towneley,† who made the abstracts, and it is not at all unlikely that the originals never again found their way to Richmond, and that this may account for at least part of the loss attributed to the carriers of Wensleydale. Of Captain Brabent I have not been able to obtain any information, but it has been suggested that he was a relative of Henry Brabyn, who was Registrar at Kendal a generation earlier; if that should be so, he would doubtless be connected with the Brabyns of Docker, in the parish of Whittington, who entered a pedigree in "Dugdale's Visitation" of 1664-5. The will of a Henry Brabyn, gent., of Brockholes, was proved at Richmond in 1672. The abstracts preserved are short, but evidently contain all the genealogical details afforded by the will itself. These abstracts have been incorporated in the List and are printed in italics, the year given being the year in which the will was made; in other cases the date is that of "proof."

The British Museum series are, as previously stated, almost all for the deanery of Amounderness. There are, however, amongst them a few belonging to Lonsdale, and the following, which refer to deaneries in Westmoreland and Cumberland:—

#### WESTMORELAND AND CUMBERLAND WILLS.

In addition to the newly compiled Indexes there is an early Calendar\* containing, *inter alia*, lists of wills referring generally to the eastern portion of the archdeaconry, but also in a few instances to the western parts; these lists, however, mostly refer to wills which have long ago been lost, but all the entries of wills now extant have been incorporated in the present volume.

The arduous task of extracting these entries from the mass of other information has been kindly performed by G. H. Rodman, Esq., of the Principal Probate Registry, from whom I have received most valuable assistance during the progress of my work.

THE FOLLOWING IS A LIST OF ALL THE LANCASHIRE ENTRIES, SO FAR AS CAN BE ASCERTAINED, AS IN ONE OF THE NINETEEN VOLUMES OF THE EARLY CALENDAR ALREADY ALLUDED TO, AND WHICH WILL SERVE TO SHOW THE PROPORTION BETWEEN THE EXTANT AND NON-EXTANT WILLS.

\* This Calendar is a transcript which has been made since the records were taken to London of a voluminous Index compiled by Thomas Tailor, N.P., the industrious and accurate Registrar at Richmond, during the greater part of the long reign of Elizabeth, and continued after his death in 1597 by his successor, down to the year 1611. The original is in a fragile state. It bears an old mark "W." This Calendar not only serves as a means of reference to such of the Wills and Inventories mentioned in it as now remain extant, but it has also peculiar value as the authentic and only record of a still larger number of documents which unfortunately no longer exist.

The thanks of the Society are due to Sir James Hannen, the President of the Probate Division of Her Majesty's High Court of Justice, for kind permission to transcribe and print the Indexes, which form the bulk of the present volume, and which, with a subsequent volume, will form a complete list of Richmond, Lancashire, Wills extant, from the 15th century to 1748.

*EXPLANATION OF ABBREVIATIONS USED IN  
THIS VOLUME.*

“INV” means *Inventory*, and is only inserted where there is no will or administration. Where there is a will the inventory or other document is not named.

“ADMON” means an *Administration Bond* but no will.

“ACCT” means *Account* given by *Executors* or *Administrators*.

“TUON” or “CURON BOND” means a *Bond* given for the guardianship of the infant children of the deceased.

“A,” “F,” “K,” “L,” at the end of the description indicate the deanery in which the papers are filed.

*NOTE.*

The original spelling of the surnames as in the MS. indexes has been followed.

The words in square brackets [ ] are not in the original MS. In the case of two names a double entry has been made, so that *Atkinson* alias *Travers* will appear under *Atkinson* and *Travers*. In cases of variety in spelling, cross-references have been inserted as far as possible, but it is not always easy to say if the same name is intended.
