PREFACE

THIS IS the 17th volume in the series of indexes of Chester Wills published by the Record Society. It covers the period 1826 to 1830 inclusive.

In general, the editor has continued the method adopted for Volume 107 in that the words 'parish of' have been omitted, the date of probate restricted to year and month only and codicils are not recorded. All documents, unless otherwise designated, are wills or administrations with a will attached. 'Infra' wills (i.e. those proved in a lower court and filed separately) are indicated by an asterisk at the end of the entry.

The present list has been prepared from the Diocesan Index now at the Lancashire Record Office and the entries arranged under three headings, namely Lancashire, Cheshire and Welsh wills. The originals, which have only been consulted in exceptional circumstances, are preserved in the County Record Offices at Preston and Chester, and in the National Library of Wales. Ten of the Cheshire wills cannot now be found and are listed here in italics.

In the five years 1826 to 1830 there are 9,745 items, an increase of some 13 per cent on the previous five years. A point of interest, perhaps, is the nuncupative will of Elizabeth Cooper of Liverpool.

As with the previous volume, indexes of places and of trades or professions have been added. The second index may prove useful in demonstrating the difference between the essentially agricultural Cheshire and the industrial and maritime Lancashire, although the period covered is rather short for statistical purposes.

The editor is indebted to the National Library of Wales for confirming the list of wills in their custody, and to the staffs of the Record Offices at Preston and Chester for their assistance which was freely available at all times.

This list of probate records is published with the assent of the President of the Probate, Divorce and Admiralty Division of the High Court of Justice.
