MISCELLANEOUS EASTERN ITEMS.

At the late election in Darke's Territory for Delegate to Congress, Gen. Todd, the present Delegate, was, as per report, re-elected by a large majority. This seems to have made a gigantic effort to secure a majority of votes by means of "stiling" the ballot-boxes, according to familiar practice. There was a large crowd present, and he addressed them quite popularly with many of the settlers. The Nation says his rascality has been challenged by Gen. Brown, who practiced in Kansas or Nebraska in relation to elections. If so, the frauds perpetrated upon the people by the imported functionary must have been enormous.

At the recent State fair, held in Beloit, Wis., the still larger number of exhibitors, in which it is said, after reviewing the history of agriculture in that State from the days of his boyhood to the present time, and predicting his future, he advised the farmers to use manure produced on their farms, instead of commercial fertilizers. The old-fashioned farmer and rum-soaked farmers a rough handling at, as an editor, he could not avoid, in a closing profession on the "state of the nation," giving free utterance to his "economizing" principles.

The Hor. Horatio Seymour, of Oswego county, was put in nomination for Governor by the Convention of that State, recently held. The Democrats in the Empire State are moving in opposition to the powers that be. A few years ago the State of New York, and, according to reports, democracy in this State, has, of late, been "hooking up," but the abolition of slavery has so estranged them against their opponents at the polls. The several political parties are so mixed up, and the people of the country are in such a condition of confusion, that they seem not to know how to extricate themselves from the difficulties in which they have become involved. The Socinians in now-born Illinois have, of late, become considerably embittered, according to the reports in circulation, and occasionally, trouble their neighbors that they have, for safety and protection, replied to a Federal offer of protection. But on, a Bill of Rights is recommended by some of the ultra republicans of this State, and the man who is here to sympathize with treason should be suffered to live in Illinois?"

The officers of the 2nd, 4th, 6th, 19th, and 44th Wisconsin, and the 85th, 86th, 87th, 88th, and 89th Illinois, have laid on the wounded soldiers of Popey army who were left on the battle-fields in Virginia after the battle of Gettysburg, and Potomac, some of whom having returned there to them were embalmed and their wounds were filled with worms. It is alleged that thousands died who might have been saved with proper care.

The Confederate have exchanged one thousand Federal prisoners for a like number of their own men who, by the fortunes of war, had fallen into the hands of the Federal army.

The swap was effected at Harrison's Landing, on James river, on the 23d of July.

After all the emigrants for the Pacific, who passed over the routes through the Western States, have either been killed or got so near their journey's end as to be out of danger, the acting Commissioner of the Interior, Judge McCulloch, from "reliable" information which he had received, deemed it his duty to notify all persons contemplating crossing the continent, by the Northern, Pacific, and Southern railroads, to be very careful of their own property, and also to be very careful of the British, French, Russian, and other Indians, whose properties were good reasons to apprehend hostility towards them in case of war, and that it would be well for them to be on their guard. Uncle Sam's officials are generally very kind of the emigrants, but very strict about such matters till all necessary for them to do so exists.

The draft was being carried for some time between Brig.-Gen. Jefferson C. Davis and Mayor-General, the former, a report is made to have arrived to a letter to a man named Wilson, which General Wilson answered by a billet of the face and the use of appropi-
